

Tencel is one of the most sustainable fibres available and is produced in an almost completely closed loop process. This 100% biobased fibre is created using Eucalyptus and Spruce trees which are harvested responsibly through Lenzing's FSC and PEFC certified supply chain. Tencel yarn holds home and industrial compostable certifications. This can be supplied plain or printed. The minimum order quantity to print is 1,000 metres.

We stock a range of 4 colours in 2 widths

Quality 7330TT

Red 8325
